About the Nemetschek Group

The Nemetschek Group is driving the digitalization of the building industry. With our software, architects, engineers, construction companies, and facility managers can plan ahead, seamlessly share information and work together more closely. Building and infrastructure projects can thus be conducted more efficiently and sustainably. The unique holding structure provides our 16 strong brands with the flexibility to innovate in an entrepreneurial way while closely engaging with their 4.0 million customers worldwide. Founded by Prof. Georg Nemetschek in 1963, the company today employs more than 2,500 experts.

BUILDING THE FUTURE TOGETHER
BIM World MUNICH | 27 – 28 November 2018

OUR BRANDS AT THE BIM WORLD MUNICH 2018

www.nemetschek.com

ALLPLAN

is a global developer of open solutions for Building Information Modeling (BIM).

Products:
Allplan Engineering,
Allplan Architecture,
Allplan Bimplus

BLUEBEAM

develops innovative technology solutions that set standards for collaboration and workflow efficiency for architects, engineers and construction professionals worldwide.

Products:
Bluebeam Revu,
Bluebeam Revu Mac,
Bluebeam Revu iPad,
Bluebeam Studio Prime,
Bluebeam Studio Enterprise

CREM SOLUTIONS

is a leading supplier of software solutions for modern, digital real estate management.

Products:
iX-Haus,
iX-Haus plus IHS

DATA DESIGN SYSTEM

develops innovative BIM solutions and has served to design, calculate, simulate and document building services projects since 1984.

Products:
DDS-CAD MEP,
DDS-CAD Viewer

dRofus

is a globally operating provider for BIM-based planning, data management and collaboration tools throughout the building lifecycle.

Products:
dRofus

GRAPHISOFT

develops a global leading BIM software for architects and enables - as BIM pioneer - model-based workflow integration through various innovative solutions.

Products:
ARCHICAD,
BIMx,
BIMcloud

MCS SOLUTIONS

is a global provider of IoT-enabled building management software and Smart Building applications.

Products:
Smart Building applications powered by the COBUNDU™ platform: MONITOR line, ASSIST line, TRANSFORM line; MCS IWMS software (Integrated Workplace Management System)

NEVARIS

develops and distributes holistic structural engineering and construction business software for architects and construction companies.

Products:
NEVARIS Build,
NEVARIS Finance,
NEVARIS BIM,
Auer Success,
Bau für Windows,
123erfasst

PRECAST SOFTWARE engineering

is the world's leading provider of BIM-optimised, industry 4.0 based software solutions for the precast industry.

Products:
PLANBAR,
TIM

SCIA

is one of the world's leading software developers for structural engineering that supports the Open BIM process.

Products:
SCIA Engineer

SOLIBRI

offers a universally applicable rule-based software solution for quality check and BIM model analysis for an efficient construction process.

Products:
Solibri Model Checker,
Solibri Model Viewer,
Solibri IFC Optimizer

VECTORWORKS

develops, sells and distributes software architecture, landscape and entertainment industries.

Products:
Vectorworks Designer,
Vectorworks Architect,
Vectorworks Landmark,
Vectorworks Spotlight,
Vectorworks Fundamentals,
Renderworks, Vision
